Empathy Map Canvas

What the User Says

- “My service request is taking too long to resolve.”
- “I don’t know the status of my request.”
- “It is difficult to contact the support team.”
- “There should be an easier way to raise a request.”

What the User Thinks

- The support system should be **faster and more organized**.
- There should be **proper tracking for every request**.
- The process should be **simple and user-friendly**.
- The system should **notify users about updates**.

What the User Does

- Sends **emails or messages to support teams**.
- Makes **phone calls to check request status**.
- Repeatedly **follows up on pending issues**.
- Searches for **alternative ways to solve the issue**.

What the User Feels

- **Frustrated** when issues are not resolved quickly.
- **Confused** due to lack of clear updates.
- **Unsatisfied** with slow support systems.
- **Relieved and satisfied** when problems are solved quickly.
